STIRRING TIMES AT MANHATTAN

MACHINERY BEING RUSHED IN AND WORK PROSECUTED WITH VIGOR.

(Special Correspondence.)

MANHATTAN, Sept. 13.—A steam hoisting plant of 20-horse power capacity has been purchased by W. A. Pierce, superintendent of the Yellow Horse Company. This plant was formerly in use at a lease on Combination ground at Goldfield. It has been dismantled and is now en route to Manhattan. Immediately it is in place at the collar of the Yellow Horse shaft, sinking will be resumed and the shaft lowered from its present depth of 110 feet to the sulphide, or permanent ore zone. The Yellow Horse management has been unable to handle the water flow at the mine for some time past and as a result was forced to cease operations. It is expected that the pump attachment to the steam equipment will handle the flow without difficulty.

BREYFOGLE.

Sinking and crosscutting are both in vogue at a depth of 210 feet in the Breyfogle shaft. The crosscut is being run out for the purpose of reaching contact with the ledge encountered at the 155-foot level and in shaft lowering the vein which made its appearance at the 190-foot point will be followed. When first encountered this ledge was but a narrow stringer, but as it was followed downward it widened gently until at the present level it has a width of three feet. It is profitable mill ore in its entirety. As the shaft is lowered, stations will be cut at intervals of 100 feet.

LITTLE GREY.

Little Grey acreage is again the scene of placer operations. C. C. Burns, the man who worked the surface dirt last year, is backing the enterprise. He has a force of men engaged in shoveling gravel into the boxes and anticipates making a generous cleanup.

WAR EAGLE LEASE.

A strike of some magnitude has been made by Pollett and Curn, leasing on the War Eagle claim of the Seyler Humphrey company. They have an incline shaft down twenty feet and at that depth are in two feet of ore of excellent milling grade. Seams in the ledge show free gold in quantity. The latter is being sacked.

START WORK.

Work has been started on the acreage of the Manhattan Knob Hill Company with the object of prosecuting an active development campaign from now on. To that end miners quarters and other buildings are being erected at the property. Iowa capital is behind the project. George Hartley, a capable mining man, is in charge of operations.

ROCKLIN HOIST.

Rocklin acreage is to be equipped with a complete and modern hoisting plant with a lifting capacity from a depth of better than 500 feet. As soon as it is in place the shaft will be lowered to the 600-foot level and from thence a crosscut be run over to the continuation of the Mustang. Thanksgiving contact. Two 60-horse power boilers, two boiler feed pumps and a double-cylinder geared hoist make up the machine equipment.

STANDING ROOM AT A PREMIUM

PEOPLE UNABLE TO GAIN ADMISSION TO THE BUTLER.

Crowded houses, to such an extent that the box office had to be closed, were the conditions at the Butler Theater last night. The new play, "A Picnic at Millers," was presented and it proved to be one of the best that has been given at the Main street playhouse. Billy Onslow and Eddie O'Brien, as Finnegan and Rafferty, kept the house in an uproar the entire time. As Irish comedians, Onslow and O'Brien are topnotchers, and it is surprising to find them away from a regular circuit. Fred Griffith as Jack O'Brien (the fighter) was good and played the role to a standstill. Helen Douglass took the part of the mischievous daughter off fine and was also well received when she rendered "The Bathing Girl." One of the best features of the evening was Marie Celestine, who, as a Coney Island "Jimmie," brought down the house when she sang "Wait Me, Bill." The chorus, also attired as Jimmies, kept the audience roaring. The moving pictures, under the supervision of Prof. Murphy, were good and were much appreciated.

DEATH COMES TO AN OLD-TIMER

GEORGE SHERWELL, RESIDENT OF NEVADA FOR THIRTY YEARS, IS DEAD.

Another of the old-timers of Tonopah has passed to the great beyond. News was received here yesterday of the death in Reno, on Thursday, of George Sherwell. The deceased was about 58 years of age, a native of Devonshire, England, and had been a resident of Nevada for about thirty years. Not a little of his life-time was spent in Bodie, California, but he was for the most part a resident of Virginia City, having been a miner in the good old days of that great camp.

Mr. Sherwell came to Tonopah about five years ago and mined in the Montana-Tonopah and other mines. He was a prominent Mason and Odd Fellow, and had a host of friends, who will sincerely mourn his loss. He left here three weeks ago, his health being not of the best, but it was not supposed that his condition was serious, and his death was a shock to his family and friends. He leaves a widow and two stepsons. Mrs. Sherwell is a prominent member of the Order of the Eastern Star. Funeral arrangements have not yet been made. Mr. Sherwell left on last evening's train for Reno, where interment will take place.

NEW OFFICERS OF THE MINERS' UNION

The new officers of the miners' union of this camp will be installed on the first of October. J. I. Gori, the newly elected secretary and treasurer of the union, has taken the place of Walking Delegate Marshall, who will be absent for the rest of his term on account of sickness in his family. The office will be out of existence with the incoming of the new officers, the duties devolving upon the financial secretary. Following is the list of officers who will be installed on the first:

C. G. Smith, president; James Clary, vice president; J. I. Gori, secretary and treasurer; M. D. McLean, recording secretary; Stewart McDonald, conductor; John Strasser, warden; J. T. Donnelly, J. McDonald and Alex. Main, trustees; Fred Lombard, Chas. E. Merers and Thomas Blacklock, financial committee.

We make a specialty of repairing complicated watches. Blakeslee, the jeweler.

COMMISSIONS ARE TO BE REVOKED

GOLDFIELD, Sept. 13.—Chief Constable Claude Inman announces that, on the 15th inst., he will revoke all commissions issued by him to deputies, except such commissions as those held by firemen, who are clothed with police authority. The order of revocation will affect many citizens who are now wearing stars. The constable will require all regularly employed police officers to file a bond in the sum of \$3000 for the faithful performance of their duty.

Constable Inman said today that he desires to return thanks to all citizens who have served as deputies for their strict attention to duty and support accorded him. In the future no commissions will be issued unless bonds are filed.

WILL CURTAIL COPPER PRODUCT

BUTTE, Sept. 13.—Orders for a reduction of the copper production have been issued by the Amalgamated Copper company, North Butte Mining company, Coalition Mining company and the Pittsburg and Montana company.

There is no present intention to close the mines, but the reduction will immediately amount to about 60 per cent and will continue until the surplus of copper is taken up.

An effort will be made to avoid a general shut-down if possible, but unless there is an improvement soon in the metal market all mining will be suspended. All extensive construction work and unusual development work have also been stopped, and in general operating expenses will be cut down as much as possible.

The normal output of the Amalgamated mines has been about 20,000,000 pounds, but for September the production will be less than 8,000,000 pounds. The production of the Butte district, normally, is about 28,000,000 pounds, but the production is at the rate of 16,000,000 pounds per month.

A large number of miners are being laid off.

TRAINS DELAYED BY AN ACCIDENT

The trains leaving here yesterday, both for the north and the south, were delayed two hours, caused by an accident to a switch engine. The latter was attached to a number of freight cars to pull them out of the way of the Bullfrog train, which was about to depart. A rail overturned and the engine ran along on the ties, cutting them up considerably. The accident blocked the passage of the Bullfrog train and also prevented the coast train from Goldfield from getting into the depot.

LITTLE FLORENCE SETTLES ITS SUIT

GOLDFIELD, Sept. 13.—One hundred and seventy-seven thousand eight hundred dollars was paid to the Florence Goldfield Mining Company today by the Little Florence Mining Company, in settlement of the claim of the lessor that the lessee had trespassed beyond its lines in stopping high grade ore, and had also removed ore from the sill floors on two levels of the mine, which should have been left in place. The settlement was based on the extraction of 772 tons of ore, after deducting treatment charges, freight and other expenses incident to handling the ore, and places an average value of about \$300 per ton on the ore.
